Air freight service

Direct and consolidated shipment from and to the main Italian and international airports. Our connections with the most established airlines and airport service partners enable us to obtain the best results with granted and time-defined services. Upon verification with the airlines, we can also handle high value-added shipment, such as temperature controlled transportation, hazardous goods or animal transportation.

Road freight service

We offer a reliable and time-definite road transport, ranging from groupage to full load trailer loads with national and European coverage. We can handle overweight and oversized shipments, partnering with the finest national and international transport companies. We offer tailor-made solutions relying on our warehousing facilities and an extensive truck and lifting equipment fleet suitable to transport and handle any kind of goods and to meet any demands of our customers.
